

THURSDAY  **POOLS®**

Your weekend starts early with us

FIBERGLASS POOL COLLECTION
2020

Thursday Pools. The industry's
most elegantly crafted and
durable fiberglass pools.

WELCOME

Welcome to our corner of the universe, the place where we handcraft one-piece inground fiberglass pool shells with the highest standards and craftsmanship in our ISO-certified facility based in Fortville, Indiana. Known widely for our innovations and quality, we owe our reputation to several contributing factors.

The Right People

- Over 35 years' experience in the composites industry
- Support and encouragement for professional development skills and knowledge
- Employees who take pride in their work
- Employees who look for ways to eliminate waste and non-value-added activities

The Right Attitude

- Customers, dealers and employees equally deserve honesty and respect
- There are no bad ideas
- Each person plays a different and valuable role contributing to the success of the organization
- We set the bar at exceeding EPA and OSHA standards

The Right Place

- 100,000 square-foot manufacturing facility
- In-house tooling capability
- Beautiful dealer training rooms
- Ultra high-efficiency and climate-controlled environment

Every day at Thursday Pools, we demonstrate our passion, care and relentless drive for innovation. What does this mean for you? It means that you can count on your inground fiberglass pool to be handmade by skilled craftsmen, durable, and available with innovations you won't find from any other fiberglass pool manufacturer. We welcome you to choose quality. Choose innovation. Choose Thursday Pools. **And get ready to create a lifetime of extraordinary moments with your family and friends.**

Visit our YouTube channel to see more of our story.

Notice and Disclaimer

This NOTICE AND DISCLAIMER is made to all retail customers, buyers and end users of Thursday Pools.

You are by this NOTICE advised that pools manufactured by Thursday Pools are sold by independent dealers and dealerships. Each dealer is an independent business person, who is completely separate from the manufacturer, Thursday Pools. Each dealer is an independent contractor, and no dealer is an owner, agent (in fact or law), or employee of Thursday Pools, the manufacturer. Thursday Pools, the manufacturer, hereby DISCLAIMS any liability for an intentional or negligent act by any dealer, dealership or installer, or any damage to any Thursday Pools pool caused by an act of any dealer, dealership or installer.

Thursday Pools will not be responsible or liable for any damages caused by any dealer, dealership or installer. Thursday Pools, as the manufacturer, offers a separate warranty to all customers and buyers of pools manufactured by Thursday Pools. That warranty offered by Thursday Pools, the manufacturer, is separate and apart from any other or additional warranty or guarantee offered by any dealer or dealership. Any statement in any advertisement, literature, brochure or website should NOT be interpreted or construed to expressly or impliedly create any relationship between Thursday Pools and any dealer, dealership or installer contrary to this Notice and Disclaimer.

Safety Information

At Thursday Pools, We're Committed to Safety

Smart pool owners always think SAFETY FIRST. They take specific steps to ensure that their family members and guests are knowledgeable about the safe and sensible use of their pool. They also ensure:

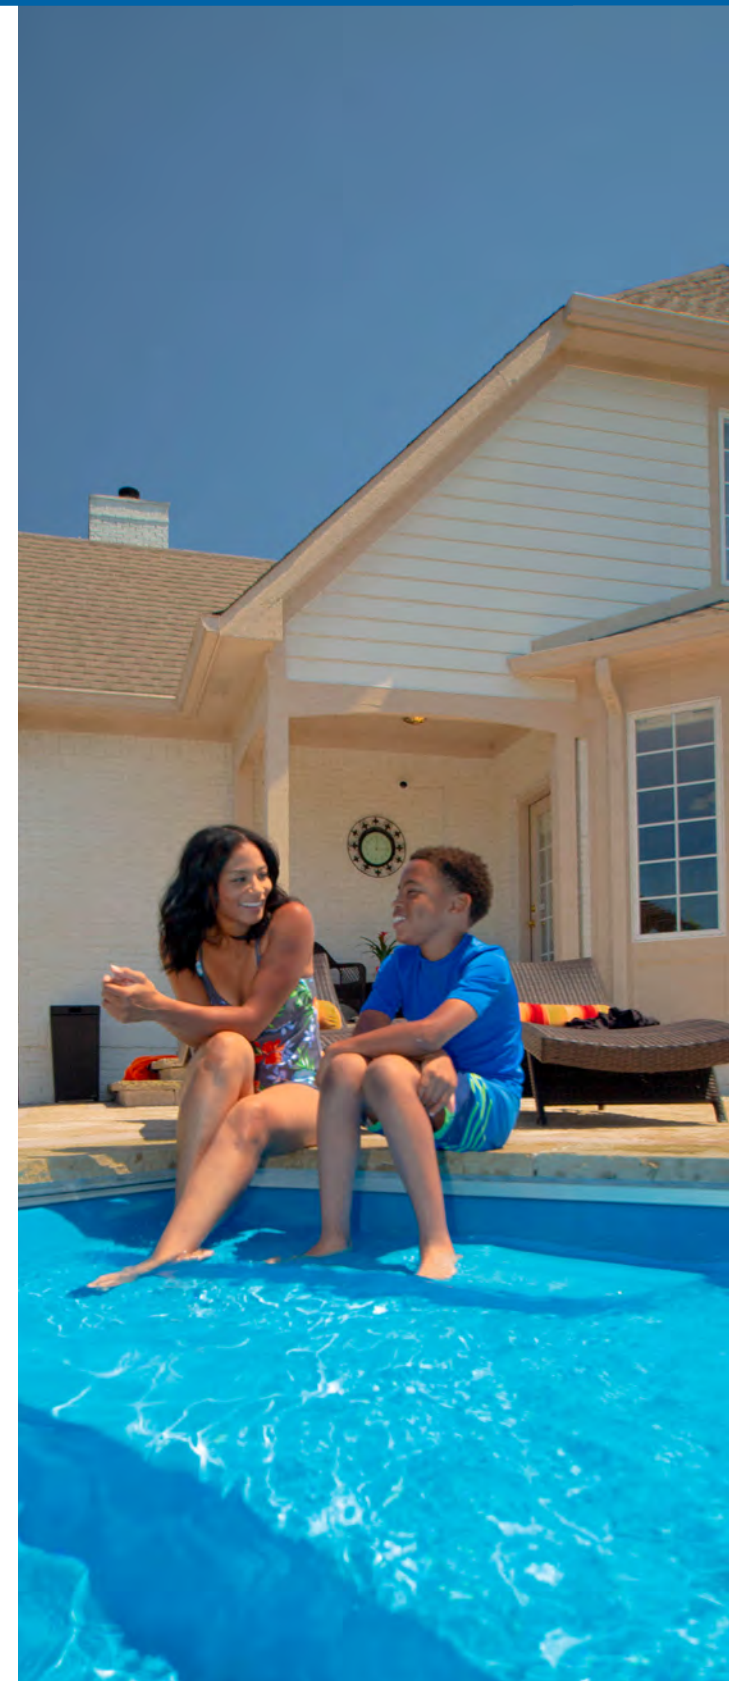

1. That their pool is never used unless there is adequate supervision.
2. That their pool is kept in good repair and is not used when there is a missing or broken drain cover or other component.
3. That ALL CHILDREN using their pool are under constant supervision.
4. That anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgment does not use the pool.
5. That their pool is protected by appropriate barriers to prevent unsupervised entry including, but not limited to, fencing with self-latching gates, automatic pool covers, alarms, etc. as required by local laws and safety standards.
6. That their pool builder has supplied them with all of the safety information that accompanies the pool and that they have installed the enclosed warning stickers and signs where they can be clearly visible to all who use the pool.
7. That for increased child safety, they always remove all toys from in and around the pool, and store them out of sight when the pool is not in use.
8. That additional important safety information accompanying their pool is reviewed carefully before use.

It's also a good idea to contact your local American Red Cross for available CPR classes and other vital safety programs.

Please note: items that are essential for the safe use of your pool may not be visible in many of the photographs contained in this brochure, either because of perspective or camera angle, or because they were removed for photographic purposes. These items include, but are not limited to:

1. Safety ropes, which should remain in place at all times.
2. "No Diving" signs, which are provided and should be installed where they are clearly visible in accordance with instructions included on the coping.
3. Necessary means of exit and entry into the pool.
4. Approved drain covers and other devices to protect against suction entrapment.
5. Minimum required inlets and returns to ensure proper water circulation.
6. Appropriate in-pool lighting if the pool will be used after dark.

All of these devices should be installed in accordance with manufacturers' instructions, ANSI/NSPI or ANSI/APSP or ANSI/APSP/ICC standards, as well as state and local statutes and codes. Diving boards and slides require minimum depths and distances and must only be installed and used in strict compliance with the equipment manufacturers' specifications and ANSI/NSPI or ANSI/APSP or ANSI/APSP/ICC standards. If the pool is labeled by Thursday Pools as NON-DIVING, then diving equipment may not be installed, and any such equipment must be removed before the pool is used.

Large Size Pools

Goliath

Fill Your Giant Expectations

Pool Sizes

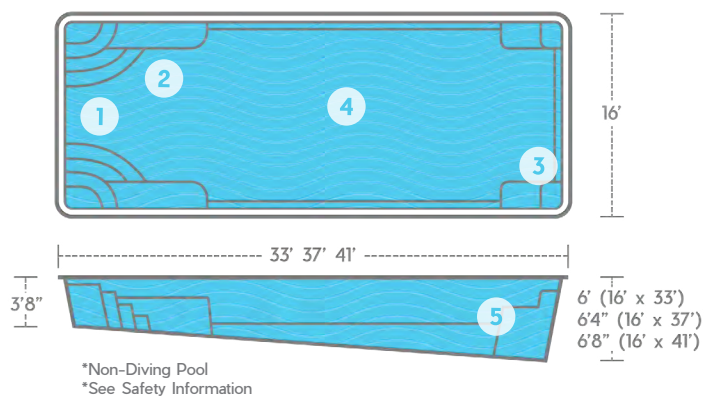

16' x 33'

16' x 37'

16' x 41'

Big pools mean big fun. If you're looking for the max in family fun and good times, Goliath is the pool for you.

1. **Ample room** to exercise, play and relax.

Color it Beautiful

Choosing the Right Pool Design is Just the Beginning

Your pool's interior surface will determine your water color, which will set the stage for the atmosphere you create.

Brown, tan, light gray and **green** interior surfaces will produce a natural, green-hued water color much like the look of the ocean reflecting off the sand.

White and blue interior surfaces will produce a more traditional blue water color. **Dark gray** will produce a steel blue hue.

The different hues of water colors are created not only by the shades of the surface interior, but also by tile, landscaping, sunlight and water depth. Keep in mind that lighter pool surfaces have a higher light reflection value and will enhance LED light visuals and depth perception while minimizing the appearance of water line build-up. Note: all colors can suffer damage if water chemistry is not within range at all times.

Water Chemistry

It's All About the Care

Our pool's interior surface is made to last and is one of the most durable pool surfaces available today; however, it is not indestructible. Water chemistry is extremely critical to maintain safe and healthy water and to protect the surface finish of your pool.

To protect the surface finish, you must maintain proper water balance and saturation index levels at all times. Discoloration, fading, whitening, staining, yellowing, mineral deposits and calcium scale can occur from improper maintenance of water chemistry.

You may be capable of maintaining your pool's water chemistry, but if you are unsure how to properly maintain your pool, hire a competent pool professional to do it for you.

Cover it Up

Automatic Pool Covers Provide Safety First

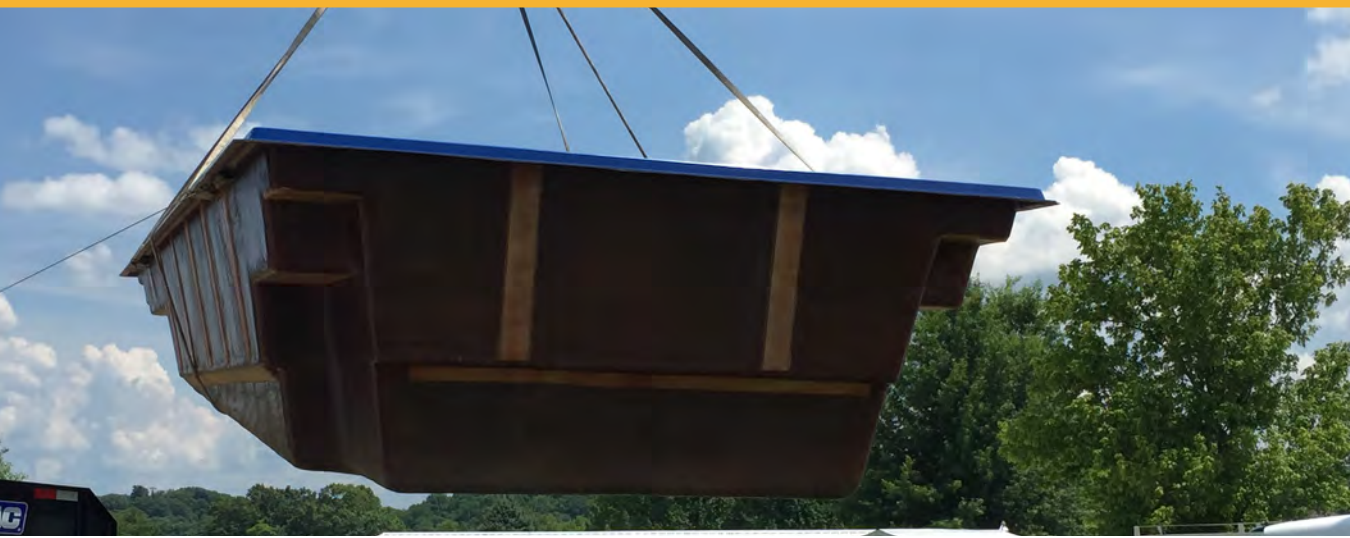

Peace of mind. Automatic pool covers protect your pool investment, and even more importantly, they protect those who matter most. Safety will always be your top concern with your new pool, and an automatic pool cover will give you security and peace of mind.

Ease of maintenance. An automatic pool cover will provide you with a more enjoyable pool ownership experience by reducing the amount of time, money and energy you'll need to spend on pool maintenance. They keep debris out and chemicals in.

It's important to note that automatic pool covers should never be the sole barrier to pool entry. Thursday Pools, along with the Association of Pool and Spa Professionals, believe every pool should have multiple layers of protection such as fencing with locking gates, alarms, etc.

Why Thursday Pools?

Benefits of Fiberglass

Thursday Pools Will Provide You With the Best Fiberglass Pool Available and Be a Resource Long After Installation

Fiberglass pools are elegant, durable and beautiful, but the surface beauty is just the beginning of the story. Here are just a few reasons why you would choose a Thursday Pools fiberglass pool:

- They're handcrafted by skilled artisans in a factory-controlled environment.
- Less maintenance and chemicals equals more free time for you.
- High-end design features like tanning shelves and benches
- They give you low lifetime cost of ownership with no replastering
- The surface and designs are pet-friendly with multiple entry and exit points.
- The smooth surface won't snag swimsuits or cause scratches

ISO Certifications

Exceeding Standards in Manufacturing and
Environmental Management

What is ISO 9001 certification?

ISO 9001 is an international standard that specifies requirements for quality management systems. Manufacturers who receive this certification have demonstrated a commitment to follow ISO-prescribed systems for quality control and continuous improvement.

Here's what our ISO 9001 certification means to you:

- You can trust that we meet the industry standard with our manufacturing systems for every step of our process including receiving incoming raw materials, equipment set-up, material application and final product loading and shipping.
- You can feel confident that your new Thursday Pools fiberglass pool is made from the highest quality materials available because we hold our suppliers to the same high standards.
- You'll know that your Thursday Pools fiberglass pool has been constructed following an established set of operating requirements in product design, development and production, and has been rigorously tested throughout the manufacturing process.
- You can count on great customer service because we're always striving to improve both our service and our employee engagement.

What is ISO 14001 certification?

ISO 14001 certification is an international standard that specifies requirements for an effective environmental management system. Manufacturers who receive this certification have agreed to implement and continue an effective Environmental Management System that includes constantly reviewing and measuring the organization's current and future processes for environmental impact, proactively reducing its environmental footprint, and creating a safer and healthier work environment for its employees.

Here's what our ISO 14001 certification means to you:

- You can feel good about having purchased a new fiberglass pool made by a company that actively promotes the most efficient use of natural resources to create the smallest possible environmental footprint.
- You can trust that your new fiberglass pool is produced with Advantex® E-CR glass made in North America by our partners at Owens Corning. Advantex® E-CR glass is also Boron-free and uses less energy to manufacture and ship.
- You'll know that your new fiberglass pool was made by a company that works with both the Environmental Protection Agency (EPA) and the Indiana Department of Environmental Management (IDEM) to maintain a Title V clean air permit as well as a commitment to recycling all possible production waste.
- Your fiberglass pool shell has a smaller environmental footprint than vinyl or gunite. Over the years, you'll never have to replace a liner or use an acid wash on the surface. You'll also need fewer chemicals to maintain your water's chemistry balance.

Warranty

On Par With Industry Standard.

Your new inground fiberglass pool is a once-in-a-lifetime investment that should be protected by a comprehensive warranty. At Thursday Pools, we operate on three guiding principles: **honesty, integrity and mutual respect**. Those principles guide our warranty too. When you buy a Thursday Pools fiberglass pool, you'll find that our warranty is comprehensive and easy to understand.

Our standard Lifetime Transferable* Limited Warranty includes:

Lifetime Fiberglass Pool Structural Warranty: Thursday Pools warrants your pool will not leak due to structural failures caused by workmanship and material used in manufacturing for the lifetime of the pool.

15-Year Pool Surface Warranty: Thursday Pools offers a 15-year surface warranty against osmotic blistering.

Innovations

Nine Layers Of Strength

The Composite Sandwich of Awesomeness

Let's think of a fiberglass pool shell as a huge sandwich. A sandwich is a composite, which basically means it's made up of different materials. Each material is applied in layers with the goal of giving the entire sandwich maximum flavor.

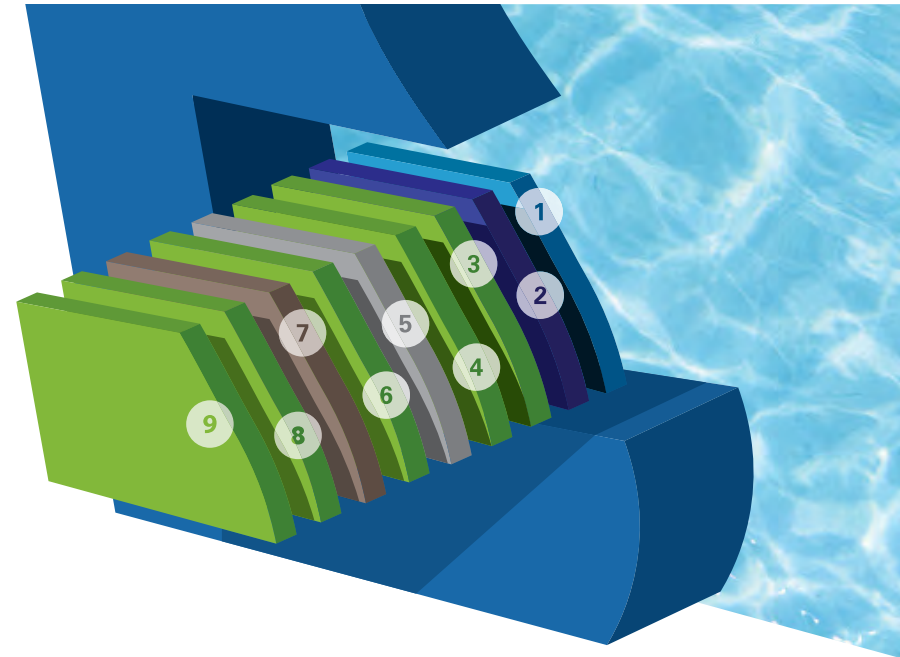

Such is the case with a fiberglass pool, which is also a composite. It's manufactured in multiple layers with each layer serving to maximize the strength and durability of the entire structure. In other words, our fiberglass pool is thought of as a sandwich of strength. Hence, we affectionately refer to our unique manufacturing methodology as our **Composite Sandwich of Awesomeness**. Here's what we put in it:

COMPOSITE
SANDWICH
OF AWESOMENESS

Visit our YouTube channel to see
how our fiberglass pools are made.

1. Gel coat.
2. 100% vinyl ester barrier coat.
3. First application of chopped fiberglass.
4. Second application of chopped fiberglass.
5. Hand-laid woven roving fiberglass.
6. Third application of chopped fiberglass.
7. Honeycomb core.
8. Fourth application of chopped fiberglass.
9. Fifth application of chopped fiberglass.

Lucky 7 Skimmer[®]

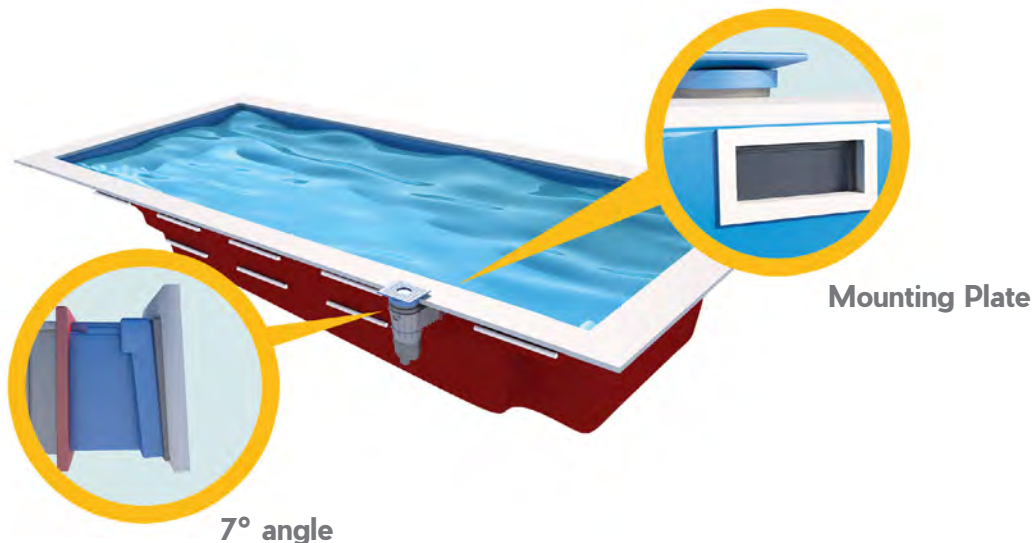

With a 7° angle and a special mounting plate, Thursday Pools Lucky 7 Skimmer is the only skimmer in the industry specifically designed for fiberglass pools. It's easier to install, has improved skimming function, allows for optimized water levels, and provides a more polished look after installation.

Skimmer Features

7° Angle for Easy Installation. Our skimmer is manufactured to account for a five to ten degree draft angle most fiberglass pool manufacturers use. The angled skimmer reduces the number of extension collars required to level the skimmer, makes for an easier installation and allows the pool to reach its optimum water level.

Mounting Plate. The lip over the opening on a traditional skimmer's mounting plate is not wide enough to cover the thickness of fiberglass pools. The Lucky 7 Skimmer's lip extends farther to ensure the raw fiberglass pool edge is not exposed, providing a more finished look.

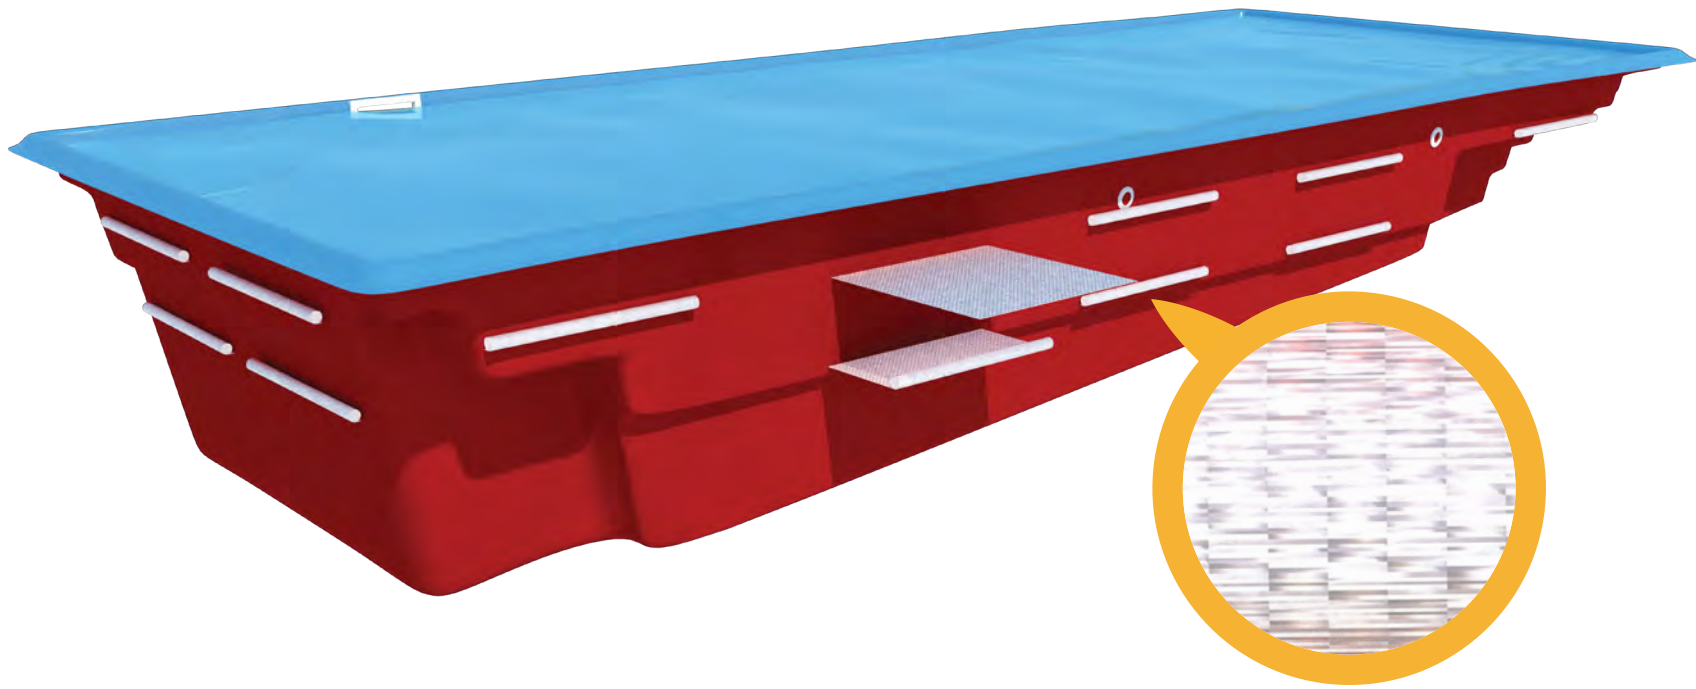

Please note: the Lucky 7 Skimmer is an option on all of our fiberglass pool designs; however, it does not come standard on any of them.

**This innovation is optional
and not standard.**

Geo-Anchoring Pool System™ ©

Thursday Pools developed the Fiberglass Pool Geo-Anchoring System to help secure your investment by providing extra strength to the fiberglass pool structures.

The Geo-Anchor
Fiberglass Pool Wall

How does it Work?

The Geo-Anchor Pool Wall (Patent No. US 9593455)

The Geo-Anchor Pool Wall prevents wall movement or bulging if water is lowered per the Thursday Pools Owner's Manual. The specially formulated geo-textile material is infused into the pool wall during manufacturing, then rolled up and secured for delivery. During installation, it's rolled out into the backfill and covered, thus anchoring it to the earth. The extension of this material allows the backfill to grip the pool wall to the earth.

Please note: the Fiberglass Pool Geo-Anchoring System is an option on all of our fiberglass pool designs; however, it does not come standard on any of them.

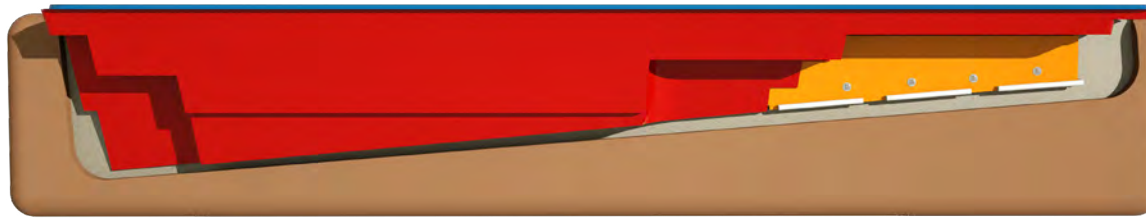

**This innovation is optional
and not standard.**

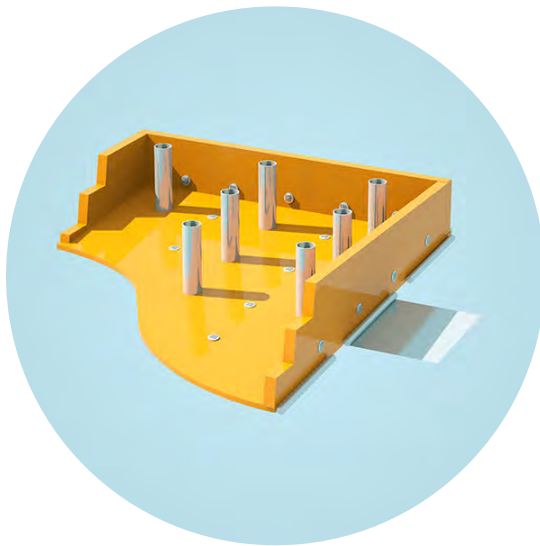

The Backfill Eliminator[®]

The Industry's Best Solution for Tanning Ledge Support

Fiberglass pool owners love the luxury of being able to bask in the sun while cooling their heels in the water on a large, built-in tanning ledge. However, these ledges have created a major challenge for fiberglass pool installers as they have struggled to find ways to support the ledges with backfill during installation.

Traditionally, crushed stone or flowable fill has been used. But if the backfill is not properly completed, the tanning ledge can feel hollow as it's stepped on. Over time, the backfill can also shift and settle, creating a void.

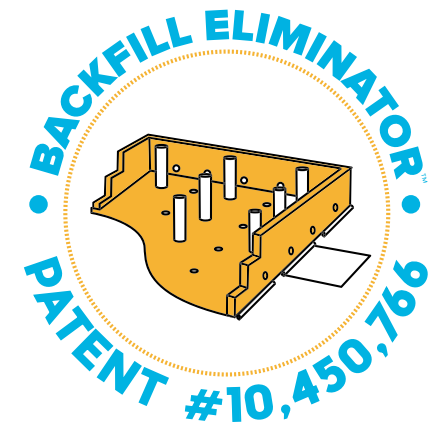

Problem Solved!

To solve this problem, Thursday Pools created the patented Backfill Eliminator, a specially fabricated structure integrated into the bottom of the pool.

The Backfill Eliminator:

- Allows sturdy and level installation.
- Permits free flow of groundwater, eliminating the possibility of stagnant water accumulating under the pool or excess groundwater lifting the pool.
- Features an access point from which pool installers can easily reach plumbing and wiring.

Visit our YouTube channel to see how the Backfill Eliminator works.

Why is it Important?

The Backfill Eliminator works in tandem with Thursday Pools' patented Geo-Anchor Fiberglass Pool Walls, which are built-in extensions that allow fiberglass pools to be anchored to the earth during installation. It's a composite structure that has an extra thick honeycomb core and numerous support pillars. The structure is added during the manufacturing process and encases the tanning ledge on the underside of the pool. The Backfill Eliminator provides lifetime structural support to the tanning ledge and one continuous slope for excavation, making it as easy to install as any other fiberglass pool.

Please note: the Backfill Eliminator is only an option on our fiberglass pool designs that feature tanning ledges and does not come standard.

The patented Backfill Eliminator is just one more way Thursday Pools is working to improve the fiberglass pool experience.

This innovation is optional and not standard.

Beach Entry Designs

The World's First Fiberglass Beach Entry Pool

Utility Patent No. 10,358,837. Design patent pending.

Enjoy a day at the beach without leaving your house

A perfect day at the beach with the entire family doesn't have to be something you only get to do on vacation anymore. Thursday Pools has created the world's first beach entry fiberglass pool.

Beach entry pools, also known as zero entry pools, have recently gained popularity at resorts and upscale hotels and have become a sought-after feature for residential pool owners. Prior to this invention, it was impossible for fiberglass pool manufacturers to integrate a beach entry into their designs.

Design Features

- Offers a gently sloping, non-skid pool entry that transitions seamlessly from most any deck or patio.
- Eliminates the need for stairs and allows easy entrance and exit from your pool, making it perfect for swimmers of all ages.
- Creates a shallow spot for small children to play and sunbathers to sit—all without the mess of sand!
- Offers the luxury feel of a high-end resort or a day at the beach in the privacy of your own backyard.
